Subject: Re: Update on OP/ tonight's call

Good morning Selina - hope you're feeling better and recovering well. I too am in Dubai so let me know if you need anything at all. No worries, I will share all important updates with and will record the session.

I'm sure this news will touch your heart and lift your spirits:

Congratulations!
You have won The Best Professor of the Year award !

I couldn't be more thrilled about this outcome knowing how much passion and professionalism you continuously demonstrate, in Dubai and now as a part of our London family. Again, congratulations to you Daniel for achieving this result - thank you.

I'd love to invite you to lunch to celebrate, next week perhaps, when you're more up for it. Let me know which day/time might work for you.

Also, please find attached the Hult DNA revised edition slides and Development Guide which we rolled out in 2018. Happy to schedule a session for us to go through together.

With gratitude,

Dr Samineh I. Shaheem
