

When you are interest in research on projects and other types of temporary organization please note that the European Group of Organizations Studies (EGOS) will run a Standing Working Group on that topic from the EGOS Colloquium in Athens, Greece, 2025, onwards. Please also note that, with the support of the Project Management Institute (PMI) and its academic journal, the Project Management Journal (PMJ), we have set up a program called “PMJ College” for junior researchers. You find more information about this in the editorial of the last issue of PMJ <https://journals.sagepub.com/doi/full/10.1177/87569728241253445>
