

SIG 02 - COGO - Corporate Governance

With our theme **Exploring the Future of Management: Facts, Fashion and Fado**, we invite you to participate in the debate about how to explore the future of management. We look forward to receiving your submissions.

GT02_00 - Corporate Governance General Track

Proponents:

Nikolaos Kavadis, University Carlos III of Madrid - Jonas Gabrielsson, Halmstad University

Short description:

This is a general corporate governance track within the Corporate Governance SIG which invites contributions from all areas related to corporate governance that are not explicitly covered by other tracks within the SIG. We welcome studies examining the antecedents and processes of governance as well as its consequences, for example, studies examining ownership structures, corporate social responsibility, international corporate governance, external corporate governance and the role of capital markets. We encourage paper submissions drawing from diverse theoretical lenses, using different research methods, and studying corporate governance in various countries.

Long description:

This is a general corporate governance track within the Corporate Governance SIG which invites contributions from all areas related to corporate governance that are not explicitly covered by other tracks within the SIG. We welcome studies examining the antecedents and processes of governance as well as its consequences. We encourage paper submissions drawing from diverse theoretical lenses, using different research methods, and studying corporate governance in various countries. Some examples of topics are the following:

- Accountability issues
- Capital markets
- Codes, rules, policies, and institutions related to the management of the organizations
- Comparative corporate governance
- Corporate social responsibility

- Corporations and society
- Financial and social performance
- Governance and digital transformation
- Governance and strategy
- Governance and sustainability
- Incentives
- Informal governance mechanisms
- Institutional investors
- International corporate governance
- Methods for studying boards and governance
- Ownership structure of listed firms
- Private equity

Keywords:

corporate governance processes
international corporate governance
corporate social responsibility
external corporate governance
ownership structures
governance and strategy
